## **DETAILED ACTION**

### **Notice of Non-Responsive Amendment**

1. Applicant's amendment in response to the Office Action dated September 26, 2008 filed on March 23, 2009 amending all claims of the invention of Group II originally drawn to the elected "process for obtaining a cellulosic membrane" to "a process for obtaining cellulosic wet sheet" is considered non-responsive to the previous Office Action. The original Group II claims as now amended are not readable on the elected invention for the following reasons:

According to MPEP § 819, the general policy of the Office is not to permit the applicant to shift to claiming another invention after an action on the merits has been given or an election is once made and action given on the elected subject matter.

2. In the instant case, all claims of the original Group II invention have been shifted by Applicant to another invention that is independent or distinct from the invention originally claimed. A process for obtaining cellulosic wet sheet and a process for obtaining a cellulosic membrane are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions have different modes of operation and different effects since a process for obtaining cellulosic wet sheet is obviously different from a process for obtaining cellulosic membrane.

3. The application currently contains no pending claims directed to the invention of Group II elected in the Office Action filed September 26, 2008.

Therefore, the amendment is considered non-responsive to the previous Office Action.

4. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the
